Overall, are these things you think Congress (**ROTATE**) should continue to fund or should Congress stop funding? (**ROTATE TOP-TO-BOTTOM / BOTTOM-TO-TOP**)

(**PHONE IF CHOICE GIVEN:** Is that definitely (continue to fund/stop funding) or just probably?)

- Modernizing, improving, and securing the electric grid and related infrastructure;
- Helping homeowners and businesses become more energy efficient;
- Providing tax credits for the production of clean renewable energy like wind, solar and hydrogen power; and,
- Providing incentives for domestic manufacturing and purchase of electric vehicles, trucks and buses in the U.S.

Now, there are a number of ways this legislation invests in improving America’s energy future. Recognizing that not all of them can be equally important, for each one of the following, please indicate how important it would be to you that we continue to invest in that purpose. Do you think it is **(ROTATE)** extremely important, very important, somewhat important, or not really important that we invest in that?
