

Centerline Liberties Poll Finds Overwhelming Bipartisan Support for AI Guardrails

This July 2026 poll was conducted by Centerline Liberties.

The Mandate for Guardrails on AI is Clear & Bipartisan

Nearly 9 out of 10

87% of Americans, from both sides of the political aisle, support placing guardrails on AI.

The electorate strongly supports:

Labeling AI Generated Content (88%)

Guaranteed Human Control (86%)

Criminal Liability for Tech Execs (83%)

Gov't Pre-Release Approval (82%)

Banning Autonomous Weapons (73%)

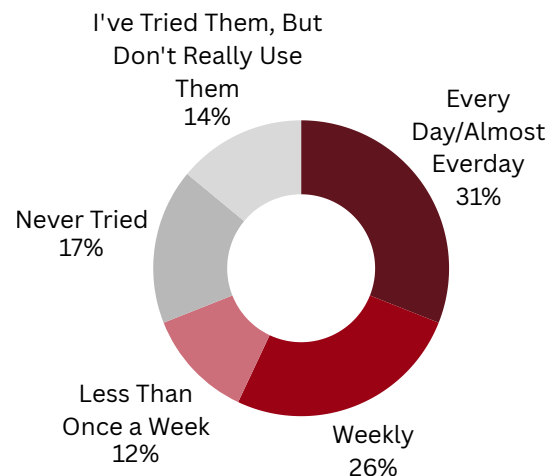

The Usage vs. Trust Gap

57% of registered voters now **use AI tools weekly**, while three-quarters **worry about it**.

Worry Outruns Hope

76% of registered voters are worried **AI could be misused**, while 63% are **hopeful it could improve their daily lives**.

AI Has Gone Mainstream

“It won’t matter if someone is a Republican, Democrat, or Independent; the upcoming debate over AI regulation will not be divided along party lines but rather will be a battle between believers versus doubters.”
